DATA to *Insight* is a consulting and training enterprise dedicated to fostering clear and simple standards for data visualization. I welcome invitations to discuss how I can help you.

EDUCATION

Ph.D., Geography 1984 University of Ibadan, Nigeria. Dissertation: “A crossnational analysis of urban concentration, with particular reference to urbanization in Africa,” 343 pp.

Course work for the Ph.D. in Economics and Planning, Massachusetts Institute of Technology, 1971-1974.

Master of City Planning 1969 University of California, Berkeley, specialization in systems and quantitative methods in planning, June.

B.A., Mathematics 1967 University of California, Berkeley, “with distinction in general scholarship.”

RESEARCH AND ACADEMIC APPOINTMENTS

Current teaching:

Geographic Information Systems, spatial statistics, and GIS in public health & environment at George Mason University, Office Continuing and Professional Education, Manassas VA, since 1993.

Professional seminar in multivariate analysis at the University of Maryland, The Universities at Shady Grove, since 2010.

1990–2010 Research Physical Scientist, U.S. Geological Survey, Reston, VA:

- Environmental spatial analysis and forecasting.
- Spatial analysis of health and health services.
- Historically Black Colleges and Universities outreach and training.

2008–2009 Adjunct Instructor, Johns Hopkins University Program in Environmental Sciences and Policy, teaching GIS online.

2005 Visiting Adjunct Associate Professor, School of Foreign Service, Georgetown University, taught GIS: Health and Environment.

1989–90 National Research Council Postdoctoral Research Associate, U.S. Geological Survey, Reston, Virginia.

1986–89 Assistant Professor of Geography, University of Vermont, Burlington, Vermont. Courses in economic geography, industrial location, regional development and planning, spatial analysis, the geography of Africa, and fractals in geography.

1985–86 Visiting Assistant Professor of Geography and Research Associate, Regional Research Institute, West Virginia University, Morgantown, West Virginia. Courses on urban and population geography and on computers. Research on energy and industrial location.

1984–85 Lecturer in Urban and Regional Planning, School of Urban and Regional Planning, University of Southern California, Los Angeles. Courses in statistics and data analysis in planning.

1978–84 Lecturer, Department of Political Science, University of Ibadan, Nigeria. Graduate and undergraduate courses in social statistics, research methods, public policy analysis, and urban management.

1974–78 Lecturer, Department of Urban Affairs and Planning, Boston University. Graduate courses in urban research methods, models in planning, and computers in planning.

PROFESSIONAL EXPERIENCE

1985 Statistical Analyst, Southern California Rapid Transit District, Los Angeles. Conducted spatial analysis of scheduling problems.

1984 Consultant to Center for Population and Family Health, Faculty of Medicine, Columbia University, New York. Provided data on health delivery sites in Ibadan, Nigeria.

1980–84 Computer Consultant to Medical Library, University of Ibadan College of Medicine. Data management, programming, and text layout of a 4000-item bibliography: *Three decades of medical research* (Ibadan: Ibadan University Press 1984), 208 pp.

1977–78 Consultant to Boston University African Studies Center. Data management and analysis of survey research.

1976–78 Chief Technical Planner, Massachusetts Department of Mental Health, Boston. Conducted policy research, information system development, service modeling.

1974–75 Consultant, U.S. Department of Housing and Urban Development, Boston. Housing policy research.

1969–71 Senior Staff Member, Marshall Kaplan, Gans and Kahn, Chicago and Boston. Responsible for monitoring Model Cities planning progress in four cities.

REVIEWS AND NOTES

- 2003 Review of Stephen Wolfram, *A New Kind of Science*, in *The Professional Geographer*. 55(3):402-405.
- 1989 Review of Jens Feder, *Fractals*, in *The Professional Geographer*, 41(2):242-243.
- 1989 Review of CCS Designer CAD software, in *The Professional Geographer*, 41(4):494-495.
- Lee De Cola and Freya De Cola 1987 "A regional summary of AAG'87 presentation abstracts." AAG Newsletter, 22(9):6.
- Lee De Cola and Freya De Cola 1986 "A regional summary of AAG'86 presentation abstracts." AAG Newsletter, 21(8):3.
- 1986 Review of Carl V. Patton and David S. Sawicki, *Basic methods of policy analysis and planning*, in *Environment and Planning A*, 18(4):564-566.
- 1982 Review of Richard J. Shavelson, *Statistical reasoning for the behavioral sciences*, in *Psychopathologie Africaine*, 18(2):271-272.

SELECTED CONFERENCE PRESENTATIONS

In each year 1984-2007 I have presented talks at the Annual Meetings of the Association of American Geographers.

2005 De Cola, Lee, and Guptill, Stephen C, "Spatial forecasting of regional states," *GIScience*, University of Maryland, pp 50-52.

2005 "Multiscale space/time visualization of pertussis" USGS Modeling Conference, Crescent Lake WA.

2004 "Visualizing injury data" SafeKids National Leadership Meeting, Washington DC (invited).

2004 "Multiscale insights into medical geography" Potomac Geophysical Society, Arlington VA, (invited).

2003 "Toward a health atlas for Africa," AfricaGIS, Dakar, Senegal.

2003 "Spatial forecasting of disease" poster and presentation at USGS Natural science and Public Health Conference.

2003 "Spatial forecasting of disease risk" American Statistical Association Joint Meeting (invited) San Francisco.

2003 "Spatial forecasting of disease risk," American Association for the Advancement of Science (invited) Denver.

2002 "Biocomplexity, complicatedness, and simplicity in the Lower Mississippi" and "The fractal geometry of nature" (invited) American Geophysical Union, San Francisco.

1999 "Population, development, and working lands" (invited talk) Keep America Growing Conference, Philadelphia.

1996 "The fractal geography of nature" Gordon Research Conference on Fractals (invited talk), Hennecker NH, June.

1992 "Simulating and mapping spatially complex land cover" 1992 Fall Meeting, American Geophysical Union, San Francisco, December.

1992 "Multiscale visualization of spatial process" 1992 National Computer Technology Meeting and Joint USGS/JPL Visualization Workshop, Norfolk VA, May.

1991 "Fractal analysis of environmental data, with applications to mapping regional and global change" Spring meeting of the American Geophysical Union, Baltimore, May.

Lee De Cola and Raymond D. Watts 1990 "Global vegetation change in complex topography: a Colorado prototype study" GIS/LIS'90, Anaheim CA, November.

1987 "Fractal analysis of land cover from Northwest Vermont." Presented at International GIS Symposium, October, Washington, 10 pp.

1986 "A microcomputer geodata system for African urban planning." Presented at 28th Annual Conference of Association of Collegiate Schools of Planning, Milwaukee, October, 12 pp.

1985 "Bivariate regression using Lotus 1-2-3." Presented at 27th Annual Conference of Association of Collegiate Schools of Planning, Atlanta, October, 22 pp.

SKILLS

Programming	R, Python, C, FORTRAN, PASCAL, VBA
Operating systems	Windows, UNIX
Database and analysis	R, S-PLUS, SAS, Mathematica, SQL
Geographical Information Systems	ArcGIS, ERDAS, Idrisi, GPS
Electronic publishing	HTML, CSS, JavaScript
Course management software	WebCT, Blackboard
Languages	Basic French, rudimentary German
